## **DETAILED ACTION**

## Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1, 2, 7-10 and 14 rejected under 35 U.S.C. 102(b) as being clearly anticipated by JP 2941226. The reference discloses controlling a rotary tablet press such that a first molding pressure is used to adjust weight of material fed to the die of the press and a second molding pressure is used to regulate the degree of compression in order to control hardness.

## Allowable Subject Matter

- 3. Claims 16 and 34 are allowed.
- 4. Claims 3-6, 11-13 and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
